Profile

As a Full Stack Web Developer, I specialize in both front-end and back-end development, leveraging technologies such as **PHP, Laravel, Flutter and React**. I am experienced in building scalable, maintainable applications and have a strong ability to rapidly adapt to new frameworks and technologies. Additionally, I have worked with **Java Spring, Vue.js and .Net Framework** development. I am committed to continuous learning and expanding my expertise across various domains to create robust, efficient software solutions.

Education

Computer Engineering Sep 2020 – Aug 2024
Süleyman Demirel University, Isparta

- Deeply experienced in Java and C# with a strong focus on algorithms and software architecture.

Employment

Full Stack Web Developer Mar 2025 – Present
Signolog, Ankara

- Currently working as a Full Stack Web Developer
- Building and managing database
- Handling route definitions and backend logic

Projects

Nobetci Eczane (Flutter App)

Developed a Flutter app using **clean architecture**, **flutter_bloc** for state management, **get_it** for DI to display real-time on-duty pharmacies in Turkey via a public API, with filtering features and **search history** tracking. The app reached over 100 downloads on Google Play.

[Inspect on Google Play Store](#)

MovieBar (Flutter App)

A Flutter app using the TMDB API to search, explore, and manage movies, TV shows, and actors. Features include secure login, watchlist management, and responsive design. Built with **clean architecture**, Provider for state management, and **Dio for API communication**.

[Inspect On Github](#)

Pizza Hot App (React)

A React app using functional components, hooks, and **Context API** for state management and **API interactions**. Features include modular design, **custom hooks** for reusable logic, and integration with a backend server for data fetching and posting.

You can also check out my other projects on GitHub.

Certificates

React v18 Training Course

Vue.js Bootcamp

Advanced Java Training

Mobile Programming with
Flutter
